BIOGRAPHY

Sunny Dawn Johnston is a gentle, loving and supportive inspirational teacher, author, motivational speaker and psychic medium. She has helped thousands of people across the country find their personal spiritual connection, recognize and “own” their natural spiritual gifts, and listen to their inner truth. She followed her guidance and created a place where people could go for support, empowerment, direction and most of all unconditional love. These are offered at the healing center as well as thru online streaming. So if you don't live in Arizona, you can still connect with Sunny from the comfort of your own home. Sunny also facilitates healing retreats in Sedona, Arizona as well as throughout the United States and internationally. Sunny resides in Glendale, Arizona with her husband, two children and two dogs. In her spare time you can find her playing with her Spirit and enjoying time with friends and family. You can learn more about Sunny by visiting her website at www.sunnydawnjohnston.com.

You have such a beautiful spirit and are a wondrous being of light. I thank God for you and for allowing me to walk this path and take this journey with you. Without you, my journey wouldn't be in its truest form of love & light like it is unfolding. Many blessings and love to you !

I think of you often and have shared your website with many on my email list. Just the other day, one of my friends referred you because of a story I told her about how you helped save my marriage by sharing your story with me that your husband is supportive of your path even though he isn't really into everything we are into. I thank you again and again for that insight! My marriage is so strong now! It's unbelievable how far we have come since I changed my thinking because of YOU! You have blessed so many people and I AM one of the lucky ones Blessed by your Wisdom! Thank you again!

Thanks for the advice. You have no idea how long I have been searching for the “right” teacher. I look forward to your classes, and to the love and support I feel when I'm with you and the other students. You are all such an incredible blessing at this time on my journey. I am deeply grateful.

INVOKING THE ARCHANGELS BOOK RELEASE

Invoking the Archangels – A 9-Step Process to Healing Your Mind, Body and Soul

Sunny Dawn Johnston has the power to move thousands from tears to laughter in the blink of an eye. She's been described as "a best friend who will love you unconditionally but also kick you in the butt when you need it most." Her support is always present as she guides you to your own personal freedom and power.

Why is she the best friend that so many look for and only hope to find? Simple. She's all about unconditional love. She teaches it, lives it and now writes about it. Her book is filled with metaphorical teachings as

she shares her raw and emotional journey from self-hatred to self-love. Desperate, angry, and fighting for her life at age 19, she reached out to the one thing she could count on – the Archangels. Sunny knows hard times: she lived in a shack, mingled with mice as she slept on the floor, and barely survived on food stamps and welfare. The only thing that kept her going was her connection to the Angelic realm.

You too can find your way from self-hatred to self-love and start living the life you truly desire and deserve. In this emotional yet practical, easy-to-understand book, you will learn about Sunny's nine step process that uses the power of the Archangels to heal your heart from the inside out. You will discover how appreciation ultimately sets you free from failed relationships, broken finances, self-hatred and damaging addictions.

Her touching, moving and inspiring "never giving up hope even when the going gets tough" life story, will make even the non-believers ... believe ... in the power of the Archangels. Are you ready to claim the life you deserve?

Michael J Tamura, Spiritual Teacher, Clairvoyant Education & Healing Pioneer, and Award-Winning Author of YOU ARE THE ANSWER

As we each make our pilgrimage from living a body-centered intellectual life to a soul-centered intuitive one, Sunny's step-by-step guide to invoking the healing wisdom and power of the Archangels comes as a gift from heaven. Whether you are looking for a ray of hope and inspiration in these challenging times or you are ready to transform your whole life, pick up a copy of this book before you take another step. Learn from someone who's been there and returned to show us how." — Michael J Tamura, Spiritual Teacher, Clairvoyant Education & Healing Pioneer, and Award-Winning Author of YOU ARE THE ANSWER

LECTURE & WORKSHOP TOPICS

Embracing the Body That Is - A Guide to Loving Yourself

In this workshop, Sunny will discuss your physical body and how to get it healthy and in alignment with your mind and spirit. Sunny will guide you through her own personal experience of learning to love, accept and appreciate herself and her body. Sunny struggled with being overweight when she was younger and this led to low self-esteem and a lack of self-confidence. Her body reflected this belief by carrying a lot of extra weight and this belief evolved into a negative body image. In this personal and insightful class, Sunny will share the steps she took to end her self-sabotaging negative self-talk and pain.

This class will address:

- Self-esteem vs. self-worth
- Physical issues and the emotional or mental cause behind them
- Tools to help you heal the emotional issues and release the physical manifestation
- Unconditional love: what is it and how do I experience more of it
- How to use affirmations and visualizations to change your thoughts and experiences
- How to release the pain and allow your divine birthright of JOY to flow through you

You can heal the pain once and for all! This class will change your life and the way you feel about yourself ... on all levels ... physically, mentally, emotionally, and spiritually (Mind, Body & Soul).

Money = Energy? Healing your Beliefs around Money, Abundance, Self-Worth and Deservability

Do you feel like you have tried everything and you still haven't created the life you truly desire to live? Do you WANT more ... love, health, happiness, abundance, joy, well-being, freedom? Do you want to release the LACK mentality and step into the Abundance that is your birthright? Are you tired of focusing on the fear of not enough and want to live in the truth of always plenty? Do you ever feel guilty for "wanting"?

Money is energy! Just like us, everything is made of energy. Money is simply an exchange of energy ... A means of exchange ... THAT is it! It is one of the most common ways that we express energy in this physical world. It is also the way we put value on, judge, or compare ourselves with others. Anyone can change their beliefs about money and begin to live in the energy of well-being. Are you ready to own your abundance, step into your power and let go of the struggle?

In this class you will learn:

- A greater awareness of the energy of money and the emotion behind it
- How worthiness and deservability affect your prosperity, well-being and abundance
- How to identify and remove the limiting beliefs
- Recognition of sacred contracts that keep you in the "struggle"
- How to create new attitudes, feelings and beliefs about money
- Spiritual practices that will release the lack mentality
- What being a wealthy person really means

Many of the beliefs you hold, you don't even know are there! They run your life, determine what you attract and decide what you will see, allow and receive! AND ... many of them no longer support you and the life you desire to create! It's time to own your natural abundant birthright.

Forgiveness - Release the Past and Live in the Present

In this workshop Sunny will teach you how to be still and listen to Spirit as you release past victim stories and self-destructive patterns that have kept you out of the joy and love that is your birthright. Forgiveness is not condoning an action, but finding the value in the experience. Sunny will help you understand what forgiveness means, why you hold on to old hurts, anger and grievances, and what steps you can take to release the pain and take your power back. She will teach you how to remove the obstacles to forgiveness and understand the miracles forgiveness has to offer.

LECTURE & WORKSHOP TOPICS

Connect with Your Spirit Through Your Angel and Guides

Through her own inspirational life story, Sunny will teach you how to embrace your current situation, empower your inner being and move from the fear you have been experiencing to the joy that is your birthright! Using her own personal experiences and unique perspective, Sunny helps you to explore and identify the emotional and physical resistance that keeps you from creating and allowing your heart's desires. She will teach you how to "empower yourself" rather than argue for your limitations. Through a series of meditations, visualizations and live music from soul musician Kris Voelker, Sunny will re-awaken the part of you that knows the truth of who you are. This workshop will offer you a chance to experience the unconditional loving energy that is surrounding you and supporting you always and in all ways. By invoking the energy of your Angels, Guides and Helpers you will be reminded of who you really are and why you are truly here.

Healing the Heart and Moving Forward

Join Sunny Dawn Johnston as she guides you thru this transformational workshop on healing the heart. After working with many clients throughout the country, Sunny has created a process that people can use to begin recognizing what is holding them back from healing, creating or simply moving forward.

Sunny will work with you to:

- Create the awareness of the situation, challenge or issue
- Move into a place of "willingness" to look inside your heart
- Remind you that you always have choices ... always
- Recognize and become aware of your desires
- Experience unconditional love and support, both physically and spiritually

Sunny will guide you thru the process of releasing the old and support you in moving to a place of openness and love. She will show you how to fill yourself up and to maintain your vibration so you are able to freely give and receive, as this is the secret to a whole and healthy heart.

How Selfish Are You?

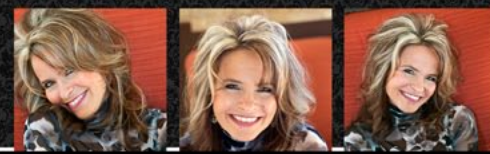

What is selfishness? Is it really as bad as you have been taught? At first thought you may regard selfishness as a negative, but what if it is actually a positive? What if you have had it all wrong? Is it possible that selfishness can be an asset, or even a necessity, for personal growth, self-love and success? Sunny Dawn Johnston believes so.

This class will offer you another way of seeing selfishness ... as an absolute necessity. It may even change your understanding of all you have been taught. Learn the difference between selfless and selfish, and how to be just selfish enough that you don't care what anyone else thinks. Learn how to feel your connection to Source instead of seeking the approval of others around you. Learn how to meditate and adjust your vibration so you will never have to depend upon "the condition" or "the person" to make you feel better about yourself. The best gift you can give anyone is unconditional love, but you must love yourself unconditionally in order to give it to others. This class will teach you how to love and honor who you are as you learn to own your own power and live YOUR own life, not the life others expect of you.

Is It Time to Tell a New Story?

Everybody has a story. Everybody has reasons, justifications, validations and perceived truths. Everybody has "their reality." But what if you began to tell a different story? What if you began to tell a story of eagerness, interest, passion, exhilaration, appreciation, excitement and love? What if you began to tell a story of "looking forward" to what lies ahead? When you tell a new story you set the powerful laws of attraction into motion. Join Sunny as she teaches you how to recognize your "current story" and re-create it into a better "feeling" story. Then let the law of attraction do its part and bring you the life you truly desire.

These is just a sampling of the many workshops that Sunny Dawn Johnston offers. Workshops can be created based on the needs of the requesting individual. The length of each workshop can vary between 2 and 6 hours.

WHAT SUNNY'S STUDENTS ARE SAYING

I wanted to take a moment and thank you for a great class last night ... all the way home I was saying OMG to the realizations that I have made. I had become very connected with Spirit and when things happened I put up a huge block saying "Oh, I don't want to hear that" and I pushed Spirit away! Over the past few weeks, I have been like "what the hell is this all about" and last weekend, in a flash, it came through to me where my fears lie. I love the divine timing in taking this class and feel as if a whole new light within me is once again opening.

Quick update: September 2008 I was guided to leave Iowa and move to Virginia Beach and I did in January 2009! I've been committed to doing my own personal work and am now feeling vibrantly healthy and totally blessed. I am progressing well with the writing of two books - one is my story and the second is a collection of other people's stories. Experiencing you, Sunny, was an invaluable stepping stone for me along my path. I know you have inspired many of us to pursue the expression of our authentic selves. Thank you!!!

I left your home today with a huge lift off my shoulders. I would have to say that was my favorite reading yet that I have received from you! EVERYTHING made perfect sense to me, and I am EXCITED to start putting your guidance into good practice. I've known you for MANY years now, and you have ALWAYS come through for me in some positive way. I appreciate you so much and will forever be thankful that you are in my life.

I am so glad I changed my schedule in Chicago at the last minute to see you! Your words and knowledge have provided me with great inspiration these past couple of weeks. I thank you for that!

My wife and I just got back home from the Celebrate Your Life conference. One very special experience that we had was in your Sunday session. Specifically, where we found unconditional love with two other people (stroking the face with eye contact). That was such a powerful and amazing experience! I was a little squeamish (read fearful) at first, but that feeling quickly melted away and a calm love emerged. It took a long time to get back down to earth after that experience. Just wanted to say thank you for all that you do.

Dawn and her daughter had an appointment with you last week. She wanted to tell you how accurate you were and what a wonderful experience it was. Thank you so much!!!

My friend Cynthia went to your talk at the Psychic Symposium this past Saturday and just couldn't stop talking about you and what you said. You gave her hope and strength to do what she is destined to do!!!

I wanted to express my gratitude for a wonderful class on Psychic Investigative techniques you provided after the Iowa Holistic Fair. Although it deviated from its original content I felt it was an amazing experience and I really learned so much from you. Your insight was amazing and completely accurate for our group. Your explanation of energy and my perception of it, as well as the helpful advice on how to start working to understand it, has put me on a path that is no longer scattered and undefined. I am starting to understand this gift much more now and am learning more every day. It's interesting how things change for us when you stop denying and embrace what is actually being experienced. To this I want to say thank you for your guidance and enlightenment. I hope to see you again next year if not sooner.

When I first signed up for the mentoring group, I had a list of things I wanted to accomplish during the 9 months - things I said to justify the time, the effort and the money. Little did I know, the giant shift that was ahead of me, would blow the doors off what I once thought were impossibilities! I have grown more in the last 9 months than I have in 5 years. Sunny is a conduit that brings individuals together in divine space and timing. She has an amazing gift which is changing and healing the world one heart at a time. I am forever grateful that she has always believed in me, even when I was not able to believe in myself. Thank you.

Q & A with SUNNY

Q. Where were you born and where have you lived longest in your life?

A. I was born in Cheyenne, Wyoming. I was raised in Salt Lake City, Utah, and have lived in Arizona for 18 years.

Q. What is your life purpose?

A. My life purpose is to help guide and support people in finding their truth, the truth that lies within. I am living my life purpose in every moment.

Q. What was the most sacred moment you have had in your life?

A. The most sacred moment I have had in my life was the day my ex mother-in-law transcended her body. It was a day I will never forget. The synchronicities of the day's events began at 10am with a phone call. She had no brain activity, was comatose and being taken off life support. The doctors said she would not live 5 minutes after taking her off support, but they didn't know the spirit of this lady! I immediately flew from Arizona to California, drove 2 more hours and when I arrived she was still alive ... 5 hours after being disconnected from life support. I KNEW she would wait for me to be there with her. When I arrived, I climbed into bed with her, held her hands in mine, and could feel the sacredness of those hours. I had 18 more hours with her, a miracle, the doctors said! She waited for me ... to give me the gift ... the gift of the sacred moment when she took her last breath on earth, and began her journey home. The moment she left, I felt her spirit move through me; my body trembled with an energy I had never felt before. That moment changed who I was and who I would become!

Q. Who was your greatest inspiration to leading you to your purpose?

A. My greatest inspiration is my mother. She has really been my support system and encouraged me to be who I was, even when I didn't fit in. That was the greatest gift I could have received.

Q. What's the big question that we, as human beings, should be asking ourselves at this time?

A. We should be asking ourselves what we are doing to make a difference.

Q. What is the greatest misconception among the general public about psychic ability?

A. The greatest misconception is that people don't believe they have the gift within themselves. They think it's something that only certain people have or that it's something that is outside of them. Everyone is psychic and everyone can learn how to connect to their intuition.

Q. What's the most rewarding aspect of what you do?

A. The most rewarding aspect is really seeing people connect and watching people grow within and finding that trust within themselves, that self-worth. It's rewarding to help people find the tools that allow them to trust themselves and know that they can find the answers within, because that's where the answers are. When that little light bulb goes on and their life starts to change from that moment on, that is the greatest gift.

Q. What is your favorite word?

A. My favorite word is "create."

Q. Why are you optimistic about the future of humanity in this time of uncertainty and fear?

A. I am optimistic about the future of humanity because we are in a time of change. Change is happening ... people are becoming more aware! It is a beautiful thing to see people moving towards their spirit! I truly believe that humanity is learning that "we must be the change we want to see in the world," just as Gandhi said.

Q. Who do you look up to as someone who is leading humanity in the right direction?

A. One of the people I look up to is Louise Hay. She's been an inspiration since I was very young, because I read her books. She really taught me how to believe in myself and honor myself and love myself. She's a great example of what one person can do.

WHAT PEOPLE ARE SAYING ABOUT SUNNY

Dear Friend!

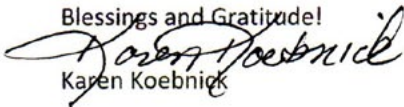

I am writing to you on behalf of Sunny Dawn Johnston. Sunny Dawn is a very gifted medium and intuitive as well as a dynamic, inspirational speaker and spiritual teacher. Sunny has been speaking at our Gift in Shift conference in Sedona every year since its inception in 2005. Sunny is always a crowd favorite. She has a dedicated following of people that have been helped by her work and her post-conference workshops are always full. Each year I receive e-mails from conference attendees telling me how working with Sunny Dawn has changed their lives.

Sunny has a clear path to God which she generously shares with others. She doesn't just speak and teach about spirituality and being heart-centered: She lives it. Sunny has a personal, diligent spiritual practice that she uses to manifest all she chooses in her life and to be a resource to all those around her.

Sunny's gentle, heart-centered teachings have helped thousands of people across the country find their personal spiritual connection, learn to listen within to their own inner truth and recognize and own their natural spiritual gifts. As a child, with the support of her metaphysical parents, Sunny was given the opportunity to follow her own truth, beliefs, and life path. She was a spiritually gifted child and has since devoted her life to the enhancement of her spiritual gifts and to the application of these gifts with humanity.

I wouldn't think of having a Gift in Shift conference without Sunny Dawn. I know that she can guide your audience to make significant changes and call forth shifts and synchronicities in their lives.

Blessings and Gratitude!

RE: Letter of Recommendation for Sunny Dawn Johnston

To whom it may concern:

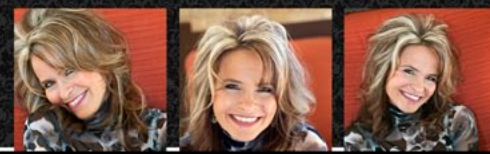

Sunny Dawn Johnston has attended our organization's speaker information meetings several times, most recently July of this year. She first attended our meeting as a member of the Find Me Organization. Find Me is a group of retired law enforcement, psychics and search dogs that look for missing persons/homicide victims. Sunny is a psychic medium and intuitive teacher.

At our meetings Sunny provides our members with information on tapping into the psychic abilities that she feels we all have and she explains the different ways of using our intuitive abilities in contacting deceased loved ones and shares her own abilities. Besides information, she brings much comfort to our members who have endured what life should never be about.

Sunny has also presented workshops at three of our National POMC Conferences, which were very highly attended and well received.

Sincerely yours,

Beckie A. Miller, Chapter-Leader

To whom it may concern,

I have been working with Sunny Dawn for approximately 8 years. She has presented at all 6 of my expos & events. Without question she adds flavor to an event. Her topics are timely, she is on time for presentations and reads the audience very well. At times in this business, adjustments must be made and she does it with grace and ease. She is extremely easy to work with and generous with her time with attendees.

In my case, a very important factor is the ability to draw attendees or viewers, which she always does well. She makes herself available for pre-show or on-site interviews which sells tickets. Last but not least, she has a great variety of topics she presents and she answers questions effectively and efficiently. Sunny Dawn is a winner and will help make your event or production a success.

Re: Sunny Dawn Johnston reference / endorsement

To whom it may concern-

It is relatively simple for a psychic medium to come up with endorsements. Clients often react to such individuals with passionate, overflowing gratitude and thanks. I, however, am not a client.

For more than 20 years I have been a television producer working in news, entertainment, reality and drama. I have spent a great deal of time with today's top national psychics- James Van Praagh, Doreen Virtue, John Holland, Debra Martin, Mary Ann Morgan and Rosemary Altea, to name a few.

As far as Talent (yes, that is an intentional capital "T") and personality are concerned, Sunny Dawn Johnston is at the top of my list. There are a variety of reason I turn to Sunny every chance I get. She is extremely easy to work with and has come up with television-appropriate clients on each occasion. She seems to have multi-faceted abilities, from reading Angel cards to facilitating communication with deceased loved ones. A bonus is her teaching aspect. She holds metaphysical classes year-round that are of interest to a wide variety of people. I have never run across a single person who comes away unsatisfied.

I do not say lightly that she is a beautiful person inside and out; I once forgot my manners and called her the "Super-hot Psychic", right to her face. I blushed; she laughed and graciously thanked me. Oops! Still, I can tell you every video crew I have ever brought into her presence also thanks me for making the connection. Her positivity, progressiveness and camera-sense are top-notch.

Sunny is TV-ready, and also ready to step onto a larger stage than I and other local media have afforded to up to this point. She has helped me create ratings successes. I hope these words can do the same for her. Please contact me if you need anything further.

Sincerely,

Scott Davis

To whom it may concern:

I have known Sunny Dawn Johnston for over 8 years and deeply respect her, and her work on both a personal and professional level. She is a dynamic and inspiring spiritual teacher, a compassionate guide, a tireless worker on behalf of Spirit and the angels, and a woman who truly cares about all those whom she serves. She is articulate, practical, and "keeps it real" for her audiences. Her love and dedication to her own family makes her work all the more credible and accessible. Furthermore, as a businesswoman, she is humble, honest, in integrity at all times, and very realistic about the balance required to perform this type of work.

I've been called the "Rachael Ray of Spirituality," but would have to say Sunny is the "Sandra Lee" in that she is professional, polished, elegant, caring, classy, and able to bring her wisdom to audiences in a way that will work easily and practically in their lives. She connects well with diverse crowds, looks wonderful on camera, and engages even those who might not otherwise take interest in this type of work. She is easy to work with, and tirelessly dedicated to her calling.

I highly recommend her and would be happy to answer further questions if you need to contact me at: angelann@cox.net

Love and blessings,

Ann Albers

This CD contains the personal story of how Sunny learned to love, accept and appreciate her body. Throughout most of her life, Sunny struggled with her weight, self-esteem, and loving herself. If you have struggled with body image issues and self-acceptance, then this CD is for you. Sunny not only offers her own story, but includes affirmations and a meditation to help you to connect to the sources of strength and healing within yourself.

She will also provide you with tools to continue your communication with the Spirit world.

Find Me: How Psychic Detectives from Around the World Have Banded Together to Find Missing People (Paperback)

This is the inspiring story of the FIND ME group, a not-for-profit organization of psychics, retired law enforcement personnel, and canine search and rescue volunteers, all working together to provide leads to both law enforcement and families of missing persons and homicide victims. These people came together in 2002, combining their talents in an effort to make a positive difference in the world. This book is their story.

Kris Voelker

In January 2005, Kris packed up her belongings and moved from Ohio to Colorado because of a yearning and longing that would not go away. Upon seeing the mountains, something inside shifted and unbeknownst to her at the time, she came home to her music and herself. Kris returned to her old time friend and companion, a 614ce Taylor guitar. She began writing lyrics and music that spoke of her inner belief that "we are Spiritual beings having a human experience." This writing phase led to the self-produced album *Just Breathe*. On this album, Kris wrote, played, recorded, mixed and mastered all of the tracks. In addition to this, Kris created two instrumental CDs entitled *Chakra Balance* and *Heart Rhythms*.

In October 2007, Kris performed titles from her first CD *Just Breathe* at World Angel Day in Phoenix Arizona. She was invited to play by Sunny Dawn Johnston and she wrote two songs for the event: "Help Me" and "You're My Angel." She got to see firsthand how her music affected the audience and her live playing career began. The song "Just Breathe" was also awarded the "Honor Award" in the Acoustic Folk category from the Great American Song contest.

In 2008, Kris returned to the studio and self-produced her second album entitled *Dream the Dreams of Life*, along with the music for all of Sunny Dawn Johnston's meditation CDs. In 2009, Kris self-produced her third album *In The Colorado Mountains* and has been sharing her music at many Unity churches throughout the United States in addition to Celebrate Your Life Phoenix and Chicago, performing alongside Sunny Dawn Johnston.

In 2010, Kris and her partner moved to Glendale, Arizona to continue working with Sunny Dawn Johnston at the Sunlight Healing Center. Currently facilitating workshops and healing retreats with Sunny and releasing her sixth album, *The Wind of Change*, Kris uses her inspirational lyrics and melodies to guide you to a place within that allows you to see the truth of who you are. Kris is looking forward to taking her music on the road and creating a space where listeners are invited to dream their dreams. Her inspirational lyrics and melodies are the voice of her heart and when you listen to her sing, your chakras open wide and her voice carries you to a place where anything is possible.

Thank you for your wonderful CD of your uplifting, joyful, original music. Your voice will bring joy to many. Thanks so much. We love you! ~ Jerry and Esther Hicks - Abraham-Hicks Publications
